🪪 Summary

Results-driven Software Engineer with 4+ years of experience specializing in React Native development for iOS and Android platforms. Skilled in designing and developing scalable, high-performance mobile applications, with strong proficiency in React.js, Node.js, and JavaScript/TypeScript. Experienced in debugging, optimizing performance, and delivering responsive, user-friendly applications. Adept at collaborating with cross-functional teams to build innovative products, ensuring timely delivery and high-quality standards.

🎓 Education

Sindh Maderssa tul Islam Uni	03/2022 – Present
BSCS	Computer Science
D.J Sindh Govt College	04/2018 – 07/2022
Intermediate	Engineering
Adam Jee Grammar School	03/2016 – 04/2018
Matriculation	Computer Science

💼 Experience

Xtecsoft — 04/2024 – Present
Sr. Mobile dev — Karachi

At Xtecsoft, I am working as a Senior Mobile Developer where I contribute to the development of **SaaS-based software solutions**. My role involves integrating **Mapbox Maps** to enable advanced location-based functionality, implementing **analytics and tracking systems**, and building **cloud upload features** with reliable **background services** to ensure performance and scalability across mobile applications.

WestPointek

Mid Sr Mobile App Dev

Karachi

During my time at WestPointek, I was responsible for designing and developing **new mobile applications** while also enhancing existing projects by resolving bugs and improving performance. I collaborated with backend teams to ensure smooth **server-side integration**, delivering efficient and user-friendly applications within tight timelines.

Visech Technologies

04/2023 – 10/2023

Front-End Developer

Karachi

At Visech Technologies, I focused on building responsive web applications while also working on cutting-edge technologies such as **blockchain** and **cryptocurrency** modules. In addition, I managed the deployment of mobile and web applications, ensuring seamless launches and stable environments for end-users.

Hair Growth Centre

10/2022 – 05/2023

Jr. React Native Developer

U.K (Remote)

As a Junior React Native Developer, I contributed to the development of a **social networking application** by implementing **QR code scanning** and **payment gateway integration**. I also worked on **real-time communication features** using sockets, improving user interaction and engagement across the app.

InApp Solution

01/2022 – 10/2022

Jr. Front End Developer

Karachi

At InApp Solution, I began my career as a Junior Front-End Developer, where I gained practical experience in **document management** applications. I implemented **chat** functionality to enhance customer support and added **scanning** features to improve overall app usability, while learning modern development practices and workflows.

🧠 Skills

Mobile Development:
- React Native (iOS & Android)
- Expo
- Native Modules

ReactCloud & Databases:
- AWS
- Google Cloud
- MongoDB
- Firestore
- Azure

Other Skills
- Deployment (Play Store & App Store)
- Debugging
- Optimization
- Web 3
- AI

Tools & Frameworks:
- Redux
- Context API
- Realm
- Async Storage

App Features Expertise:
- Push Notifications
- Payment Gateway Integration
- QR Code Scanning
- Real-Time Communication (Sockets)
- Mapbox Integration
- Analytics & Tracking Systems
- Background Services

Front-End Development:
- React.js
- HTML5
- CSS3
- JavaScript
- Typescript

Back-End & APIs:
- Node.js
- Express.js
- RESTful APIs
- Firebase
- GraphQL
